

Hello Everyone,

In order to demonstrate **assignment #2** of Comp 249, you should choose your demo time in Moodle.

In particular, you will find some different schedules, labeled “**Demo of Assignment 2**”. You need to click on any of them and select a 10-minutes time slot for your demo from the available ones. Reservation is on a First-Come-First-Served basis. Please consider that if you’re working in a group, one of you **MUST** reserve a time-slot, hence **only one time-slot per group.**

After you select your time slot, you have to check the zoom link of that marker; which is indicated there. Also, you need to check the “**demo instruction**” document that will be communicated to you via Moodle announcements.

Once you reserve your demo time, you should take note of the zoom link for your demo which is indicated above your selected demo. In case Moodle is down, you should keep the zoom link in advance.

In case you have an issue with your mark, please do **NOT** contact the professors or the other markers. Please contact only the marker that you did the demo with.

Here are also some important notes that you must take note of:

- Before connecting to the meeting, test your program, your IDE, etc. and **make sure that everything is working.**
- **If working in a group, all members MUST be present and all MUST have the IDEs working on their machines. If one of the team members is absent, or unable to demonstrate, a Zero mark will be given to that member.**
- Your meeting time is EXACT. You have to make sure that you connect a few minutes prior to your time. If you are not present at the start of your demo time (or if you join the meeting late), you will lose the time that you missed; additionally, some marks will be deducted for that. In all cases, your meeting will end at the exact time of your reserved time slot.
- When you join, you will be asked to wait on a waiting list, then the marker will let you know when to enter the meeting.
- You **MUST** enter (rename) your name on Zoom as “Student ID <First Name - Family Name”> (please notice that if you come without following this structure, a 0.5 mark will be deducted automatically.)

Remember you only have 10 minutes to present your demo. So, open your environment and make sure everything is ready on time.

Now please read carefully:

- If you fail to demo, a zero mark is assigned regardless of your submission.
- If you book a demo time, and do not show up, for whatever reason, you will be allowed to reschedule a second demo but a penalty of 50% will be applied.
- Failing to demo at the second appointment will result in zero marks and no more chances will be given under any conditions.

PS: For privacy reservations, this Zoom demo will not be recorded, and you are not permitted to record as well.

Good Luck!
